CON NOTES**March 2017**

Greetings, Members of the Regulated Community!

Last month, we let you know about two issues that had to do with the review process, generally. If you missed that installment of CON Notes, we encourage you to take a look. In this installment of CON Notes, Program staff wish to draw your attention to two items of timely interest to the regulated community; the South Carolina Health Plan comment period and Department site visits.

South Carolina Health Plan

As you are no doubt aware, the Department is currently undertaking an update of the South Carolina Health Plan. This process has been very smooth thus far, and Program staff would like to enlist your help to continue this trend. Available on the CON website, you will find a comment template for the submission of public comments on the Draft 2017-2018 South Carolina Health Plan. If you would assist the Program by using this form, we will be able to more quickly and accurately compile public comments following the end of the comment period at 5:00PM on Friday, April 7, 2017. Of course, you may continue to submit comments in the form of a letter or other format, but your additional submission of the template would be immensely helpful. The template may be

emailed, when completed, to coninfo@dhec.sc.gov. We greatly appreciate your thoughtful comment on this draft document and look forward to our continued work together towards a final product.

Site Visits

As the Program continues its work to improve customer service and the regulatory process in general, we will be contacting many of you to schedule site visits throughout the year. These are not inspections, but merely another way for us to connect and better understand the needs of your facility and the communities you serve. Eva Johnson, our Health Regulation Liaison, will be contacting you to set up these site visits. If you would like to schedule a site visit proactively, please feel free to give Eva a call at 803-545-4316. We do not have any specific schedules for these visits, so please feel free to make suggestions as we contact you. Of course, if you have any ongoing projects Program staff would love to see them in progress and receive updates on any additional needs you may have. We look forward to our visits with you.
